

RCCEx Exported Macros

RCCEx Force Release  
Peripheral Reset

```
graph RL; A[RCCEx Force Release Peripheral Reset] --> B[RCCEx Exported Macros];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow pointing from right to left. The box on the right is shaded gray and contains the text 'RCCEx Force Release Peripheral Reset'. The box on the left is white with a black border and contains the text 'RCCEx Exported Macros'. The arrow indicates that the macros are dependent on or derived from the reset function.
